

Looking for Production Technician(s)

Colorado Therapeutics is currently seeking Production Technicians to perform medical device manufacturing. Candidates should be familiar with production processes, such as performing in-process inspections and tests, and should be comfortable working in a clean-room environment. Technicians will be manufacturing biologic tissue matrix products from animal sources for a broad range of soft tissue reinforcement, regenerative, and vascular applications.

Qualifications:

- Previous experience with Medical Device Assembly
- Experience working with mammalian tissue sources highly preferred
- Strong attention to detail and quality
- Ability to consistently follow detailed work instructions to specification
- Ability to complete tasks in a timely fashion
- Experience working under a microscope
- Must be able to effectively communicate with others
- Dependable, dedicated and willing to learn
- The ability to work well with others and be part of a growing team
- Can lift and carry boxes up to 50 pounds
- Minimum of a high school diploma or GED required

Details:

- Location: Broomfield, CO
- Shift: Monday through Friday from 8:00 AM – 4:30 PM
- Compensation: \$14-\$16/hour depending on experience
- Benefits: Health insurance and 3 weeks paid time off; after 60-day evaluation period

Successful candidates must provide proof of eligibility to work in the United States of America and pass a Background Check and Drug Screen.

If you are an individual that is able to create strong relationships built on trust, listen well, share information, act in a team-oriented environment, act with integrity, and be culturally sensitive, then please send your resume or a summary about your skills and past work experience for consideration to: **info@co-therapeutics.com**. Qualified candidates will be contacted for an interview.
