

## **Looking for a Production/Manufacturing Manager**

Colorado Therapeutics LLC is currently seeking a Production/Manufacturing Manager to oversee and ensure the efficient and timely production/manufacturing of all goods. Colorado Therapeutics is a privately held medical device company based in Broomfield, CO that is developing xenogenic (sourced from different mammalian species) biologic tissue matrix products for a broad range of soft tissue reinforcement, regenerative, and vascular applications. The Company is leveraging over 15 years of innovative and proprietary tissue processing technology to produce a superior biologic product that combines the benefits of currently available biologic and synthetic products.

Ideal candidates will have 5+ years of technical medical device production/manufacturing management experience in a medical device clean-room environment and have experience with biologic tissue products/sources. The candidate will have experience planning, organizing, and controlling production to ensure that goods are produced efficiently, on time, within budget and to standard(s).

### Responsibilities:

- Plan, implement, and control a production schedule
- Review and adjust the schedule where needed
- Determine and manage human and material resources to meet production targets
- Make decisions about equipment use, maintenance, modification and procurement
- Ensure that standard operating procedures are adhered to
- Ensure implementation and adherence to health and safety procedures and OSHA guidelines
- Set and monitor product quality standards
- Implement and enforce quality control and tracking programs to meet quality objectives
- Analyze production and quality control to detect and correct problems
- Determine and implement improvements to the production process
- Prepare and maintain production reports
- Monitor and review the performance of staff and organize necessary interventions for improvement
- Estimate production costs and set and manage production budgets
- Implement cost control programs
- Ensure efficient collaboration and co-ordination between relevant departments including procurement, distribution and management

### Qualifications:

- A university degree is required (preference will be given to those with degrees in a relevant field, though all candidates are welcome and encouraged to apply)

- Previous experience in Medical Device manufacturing environment
- Experience working with mammalian tissue sources highly preferred
- Knowledge and experience in production and manufacturing processes and techniques
- Knowledge of raw materials
- Knowledge of quality systems, FDA standards, and Regulatory Guidelines
- Knowledge of health and safety standards and compliance
- Knowledge of process improvement techniques, six-sigma experience preferred
- Knowledge of business, finance and management principles
- Knowledge of human resource principles and practices
- Knowledge of machines and tools
- Knowledge of engineering and technology principles and practices
- Solid computer skills
- Strong attention to detail and quality
- Ability to consistently follow detailed work instructions to specification
- Ability to complete tasks in a timely fashion
- Must be able to effectively communicate with others
- Dependable, dedicated and willing to learn
- The ability to work well with others and be part of a growing team

Details:

- Location: Broomfield, CO
- Manufacturing hours: Monday through Friday from 8:00 AM – 4:30 PM
- Compensation: Title and compensation commensurate with experience level
- Benefits: Health insurance and 3 weeks paid time off; after 60-day evaluation period

Successful candidates must provide proof of eligibility to work in the United States of America and pass a Background Check and Drug Screen.

If you are an individual that is able to create strong relationships built on trust, listen well, share information, act in a team-oriented environment, act with integrity, and be culturally sensitive, then please send your resume or a summary about your skills and past work experience for consideration to: **admin@co-therapeutics.com**. Qualified candidates will be contacted for an interview.
